

This is my report about the first short term exchange program in Jihlava. First I will report about the pension and the restaurant. In general the pension was fine. Each day the employees were cleaning our room. We got new towels, glasses,...if we had problem, e.g. with the refrigerator or the key, they helped us/fixed it immediately. Except the breakfast, which was very limited in the variety and quality, everything was great. Next the restaurant. From my side the restaurant was great. Of course it is another country with a different food culture, so maybe for some students, who don't eat that much meat or don't like it, should choose the mixed or vegetarian option. For me the food was excellent and waiters were nice and very polite.

The Czech course was prepared very well. The division of the students into smaller groups improved the efficiency of this language course. Of course the division helped to make an enjoyable and more active class. The games, excursion during the language course especially the "Schnitzeljagd" and the trip to the zoo were very funny and auxiliary to learn Czech. I know that it is not possible to cover everything within 2 weeks, but it would be very helpful to get an overview about the grammar, rules, if it is possible, to get a concept/a picture of this language. Generally the topics and the course were very great and helpful but in my opinion the other courses are quite useless, because it is very difficult to create a lesson for 17 people, who have a different level of know-how. Some of us, not all were bored, on one side because they have already learned it and on the other hand, because they were not interested in this topic. So my suggestion would be to cancel these lessons and give more Czech lessons or deter more group-based lessons (games,...).

The trips to the cities, tours, and excursion were fine and very interesting, except some excursion to the companies. The trips to the companies were very different regarding to the quality, so Bosh trip was rather boring and not very interesting. The presentation of the Bosh was really great and informative, but the visit of the factory was rather boring and too short. The other companies were very informative and should be visited again, of course if the program will continue.

The representatives were very nice and dedicated. Because of these two nice girls each trip, night was a really funny and special one. Especially our free-time  
Next year I just can recommend them as representatives again.
